

Aashish Yadav

Software Developer Engineer - I

CAREER OVERVIEW

Full-Stack Developer with hands-on experience in Java Spring Boot and MERN stack, proficient in building scalable web applications, RESTful APIs, and admin dashboards. Skilled in developing responsive frontends using React.js, TypeScript and Tailwind CSS, and managing databases with MySQL, MongoDB, and PostgreSQL. Experienced in authentication, cloud deployment (AWS), and applying MVC architecture for maintainable code.

SKILLS

- **Frontend**:- React.js, Next.js, Tailwind CSS, Vite.js, TypeScript
- **Backend** :- Node.js, Express.js, Nest.js, Spring Boot, Java
- **Database** :- MongoDB, MySQL, PostgreSQL
- **API & Architecture** :- GraphQL APIs, REST APIs, OOP Concepts, Hibernate, JPA
- **Other** :- Docker - Container, Git & GitHub, AWS(EC2, RDS, Elastic Beanstalk, Load balancer)
- **DSA**:- C/C++ , Core Java ,

WORK EXPERIENCE

Flipr Innovation Labs

Software Developer

Full-stack developer experienced in building scalable web, mobile, and desktop applications using **MERN stack** and **Java Spring Boot**. Skilled in developing frontend interfaces (**React.js, Next.js, Vite.js**, Tailwind), creating **REST/GraphQL** APIs, and managing databases (**MongoDB, MySQL**). Strong background in admin panels, dashboards, and cross-platform apps, with hands-on experience in team mentoring and code reviews.

Key Projects

- **FliprLabs Admin Panel / App** – Hackathon and cohort management system with student tracker, mentor dashboard, and task management.
*Tech stack: **React.js, Node.js, NestJS, MySQL, GraphQL (Apollo)**.*
- **Flipr.ai** – Developed features for the career page enabling users to explore job opportunities, apply directly through the platform, and schedule appointments with mentors for guidance and feedback.
*Tech Stack: **React.js, Node.js, Spring Boot, MongoDB, GraphQL (Apollo)***
- **Job-Portal** – Developed a complete recruitment platform enabling candidates to apply for jobs, complete assessments, and track progress seamlessly. Implemented features for admin and employers to manage job listings, candidate profiles, and recruitment workflows efficiently.
*Tech Stack: **React.js, Node.js, NestJS, MongoDB, GraphQL (Apollo)***
- **Realtime Chat** - Developed a live chat platform where users can view online members and exchange instant messages using WebSockets. Implemented real-time presence detection for active users.
*Tech Stack: **React.js, Node.js, Socket.io, MongoDB***
- **Flipkart Pallet Mapping System** - Built a real-time parcel tracking system for Flipkart with QR code generation and scanning to trace pallets across delivery stages. Managed pallet data in MongoDB and optimized tracking workflows for transparency.
*Tech Stack: **React.js, TypeScript, SpringBoot, MongoDB***

PROJECTS

Smart Contact Manager :- Developed a full-stack contact management system with secure authentication, CRUD operations, image uploads, and pagination. Applied MVC architecture for scalability and maintainability.

iNoteBook:- Built a notes management platform enabling users to create, edit, and delete personal notes with JWT-based authentication and responsive UI.

Product Management System:- Created a RESTful backend service for product management with layered architecture and efficient ORM using Spring Data JPA.

Carbon Emission Tracker:- Developed a web app to calculate carbon emissions based on travel distance and load using location-based APIs. Implemented backend logic to compute real-time emission data for trucks and airplanes.

Book Management System – Built a web application for managing library books with secure user authentication and full CRUD functionality. Developed the backend using Spring Boot and the frontend using Vite.js with Redux for state management.

CERTIFICATION

- **AWS Academy Graduate – Cloud Foundations**-Completed foundational AWS Cloud training covering core services, architecture principles, pricing, and security concepts.
- **CCNA: Switching, Routing, and Wireless Essentials** – Gained practical knowledge of switching operations, wired and wireless LAN configuration, redundancy protocols
- **SQL and Relational Databases 101** - Learned the fundamentals of SQL, relational database concepts, and data manipulation using IBM's Cognitive Class platform.
- **Getting Started with Azure DevOps Boards** - Completed introductory training on Agile project tracking using Azure DevOps Boards, including backlog management, sprint planning, and work item tracking.

EDUCATION

B.Tech - Information Technology and Engineering

CGPA - 7.31

Indore Institute of Science & Technology, Indore

12th - Abhinandan HSS Betma - MPBSE

- Percentage - 73.4%

10th - Abhinandan HSS Betma - MPBSE

- Percentage - 72.3%
